About MPCB

Maharashtra Pollution Control Board established on 7th September 1970 implements a range of environmental legislation (Water and Air Act) in the state. MPCB functions under the administrative control of Environment Department of the Government of Maharashtra. The Key functions of the department are:

1. To Organize comprehensive Environment Awareness Program in which entrepreneurs are suggested to use appropriate pollution control technologies and techniques.
2. To collect and disseminate information relating to pollution and the prevention, control or abatement.
3. To inspect sewage or trade effluent treatment and disposal facilities, and air pollution control systems and to review plans as per the granted consent.
4. Supporting and encouraging the developments in the fields of pollution control, waste recycle reuse, eco-friendly practices etc.

MPCB Consent is required by the Industries in which the industrial process/operations generate Trade Effluent (Liquid, Solid and Biomedical Waste) which can harm the Environment.

About MPCB (Count.)

There are three types of MPCB Consent. These are required at different stages.

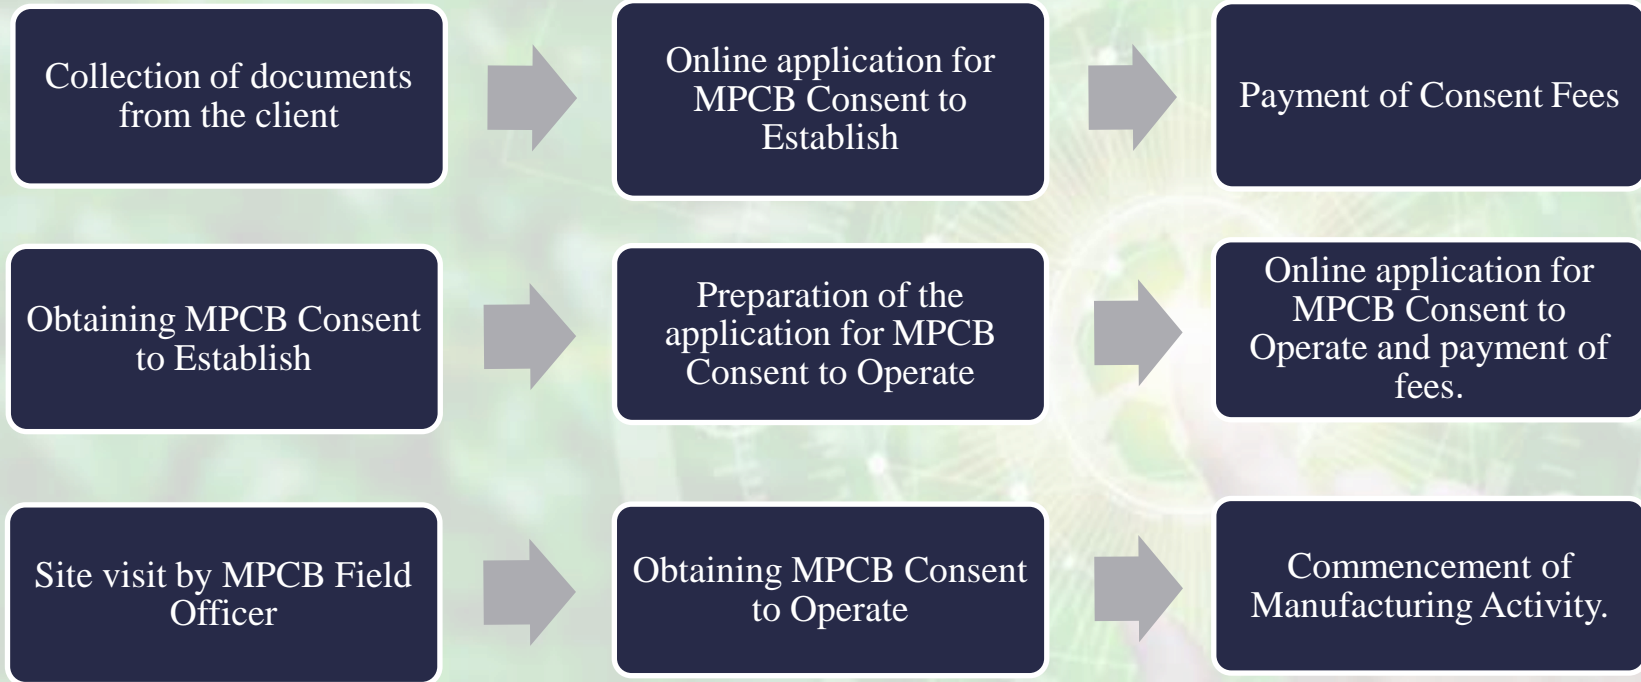

- 1. Consent to Establish :** Required by all Industries prior to commencement of development of plot.
- 2. Consent to Operate:** Required prior commencement of production activity including trial production. This consent is valid for certain duration.
- 3. Renewal of Consent to Operate:** The consent to operate has a validity period. Prior to the expiration, renewal consent is to be done.

Categorization of Industries

- The Criteria of Categorisation of Industrial Sectors is based on **Pollution Index**. The Increase value of Pollution Index denotes the increase degree of pollution.
- Consent to Operate is not required for white category of industries.

	White Category	Green Category	Orange Category	Red Category
Pollution Index (???) Unit of Measurement	0-20	21-40	41-59	60 & Above
Validity of Consent to Operate		3 Years	2 Years	1 Year
